

SmartFence®

Smart Conduit System

Efficient and cost-effective solution for housing security system cables.

Product detail

BENEFITS

SmartFence is designed to house power, data, and detection cables in one easily accessible conduit. The fence-mounted system is a cost-effective solution that reduces civil works, simplifies installation, retrofitting, and integration. Durable steel and aluminium protect cables against tampering and the elements. Tests show that detection accuracy and functionality remain unaffected with no increase in nuisance alarms.

- Reduced civil works requirement
- Cost-effective laying of integrated security system cables
- Single conduit housing power, data, and detection
- Power cable in a separate chamber
- Quick and easy installation and retrofitting
- Continuous and stable cable protection
- 10-Year Guarantee
