

Egidia® Zenturo Super swing gate

Product detail

Applications

Functionalities

Swing gates

Egidia Zenturo® single swing gates are ideal for a stylish entrance. The frame infill perfectly matches the Zenturo® style, for both version, Classic & Super.

BENEFITS

- The frame, the Zenturo® Super infill and the post system are very robust.
- The Zenturo Super gate is equipped with a design and secure lock and hinge system:
 - lock with safety anchor (all stainless steel)
 - handles and key cylinder
 - high quality lock
 - solid hinges, which allow 110° opening, in all directions
- Can be combined with Zenturo® Classic and Zenturo® Super fencing systems.

Frame

Frame made of square tube 40x40x 1.5 mm with welded-in Zenturo Super panel.

Gate infill

The gate infill consists of a Zenturo Super wire mesh panel, with mesh sizes 100x50/50x50 mm and with alternating horizontal wires.

Accessories

Zenturo Super swing gates feature 2 square gate posts, 60x60 mm where you can fix the Zenturo panels to the gate posts.

The gate accessories (lock/handles/gate fitting/hinges) offer various additional benefits in terms of quality, security and design. They are compatible with all Egidia infill gates.

All accessories are included in the packaging of the gate.

Base plate can be bought separately for installation on concrete or tiles.

Coating technique

Galvanised and polyester plastic coated.

Colours

Anthracite grey BF7016M
